

BPIC members Farewell John Keith

Ian Frame (BPIC CEO), John Keith, Glenn Simpkin (BPIC Chairman)

John Keith's contribution to the material industry was celebrated at the BPIC Annual Dinner held in Sydney on 27th May. John's career over the past 25 years has seen him work in the timber industry and more recently as the Executive Director of the Steel Reinforcement Institute of Australia.

BPIC board members enjoyed a night of story telling and hilarious memories from John's long association with the materials sector. John expressed his delight in seeing the diverse and competing materials associations working together through BPIC in areas of mutual benefit and congratulated the BPIC on its pioneering efforts since its inception in 2002, particularly the Life Cycle Inventory project.

Plans are well underway for John and his wife Dawn to travel the world, before returning to explore the length and breadth of Australia in his brand new 4 wheel drive.

John with long time friend from the timber industry, John Bagley
