Mobile app and access

# Decarbonization and electrification snapshot

Decarbonization of Concrete

AS 5204 - Fibre-Reinforced  
Polymer Bars at Public  
Comment stage (resolution)

SA TS 199:2023 Design of  
geopolymer and alkali-  
activated binder concrete  
structures – published 5 May

Battery Best Practice  
Tech Spec

EV Chargers for Domestic &  
Commercial Application

# Access to Proposals, Public Comment, Training and Committee Space

The image shows a screenshot of the Standards Australia website's navigation menu. At the top left is the logo for 'STANDARDS Australia 100 CELEBRATING 100 YEARS 1922-2022'. To the right is a search bar with the text 'Search site or look for a standard'. Further right are links for 'FAQs' and 'Contact Us', and social media icons for LinkedIn, Twitter, and YouTube with the text 'Connect with us on'. Below this is a horizontal navigation bar with the following items: 'Home', 'About us', 'Standards Development', 'Engagement & Events', 'Access Standards', 'News', 'Our Centenary', and 'Committee Access'. The 'Committee Access' item is highlighted with a dark blue background. Below the navigation bar is a grid of eight icons with corresponding text labels: 'Connect' (chain link icon), 'Technical Committees' (wrench icon), 'Public Comment' (speech bubble icon), 'Standards Academy' (black banner with 'ACADEMY' text), 'Standards Library' (book icon), 'Submit a Proposal' (document with arrow icon), 'Proposal Consultation' (speech bubble with arrow icon), and 'International Participation Platform' (globe with airplane icon). At the bottom of the screenshot, the website URL 'www.standards.org.au' is displayed in a blue, stylized font. The background of the screenshot features a blurred image of a 'STANDARDS AWARDS 2023' certificate.

## Accessing Standards: New Mobile App

- View standards on work sites in real time via your mobile phone
- SA is working on the pricing model
- Consultation with industry this year and working with our partners on delivery
- Distributors hoped to be ready with apps in the market by December 2023

Thank you
